

GRINDER DUPLEX SHARPENER

heavy duty sharpener

diamond coated grinder

This unique grinding and sharpening tool for the craftsman grinds and sharpens all damaged blades. Ideal for use in the garden, on the farm and in the workshop.

THE TOP ADVANTAGES:

- Easy and safe to use
- Exceptional wear resistance
- Excellent hardness
- High lifetime

iSTOR DIAMOND GRINDER:

- Eliminates nicks on all damaged blades
- The grinder is made of diamond coated hardened steel
- The sharpening blade is a special hard metal mixture - as hard as diamond
- Sharpens any kind of blade

POLISHES WITH A DIAMOND-COATED GRINDER

EASY TO USE:

With the flat side of the diamond grinder, grind the blade with a rotating movement at an angle of 20°-30° (like a sharpening stone). Pull the concave sharpening edge gently along the blade edge at an angle of 30°-50°. Work only with one side of the sharpener.

 SWISS QUALITY 

Our customers say:

"The ISTOR SWISS SHARPENER® is the best sharpening tool for all kinds of blades"

ISTOR SWISS SHARPENER® - the Original Swiss Sharpeners for Home, Garden, Hobby and Workshop.

Blunt blades of any kind get re-sharpened in only a few seconds. Easy to use – with the desired outcome.

INDISPENSABLE FOR:

- Housewives
- Cooks
- Gardeners
- Wine growers
- Farmers
- Foresters
- Fisherman and Hunters
- Farriers
- Campers and hikers
- Yacht owners and captains

SHARPENS IN SECONDS:

- Meat and bread knives
- Scissors
- Secateurs and pruning shears
- Hoof knives
- Tin snips
- Fish hooks
- Scythes
- Sickles and axes
- Lawn-mover blades
- Bush knives

STANDARD SHARPENER

The standard model is the smallest sharpener in the range. There is room for it everywhere - in the kitchen drawer, in your tool box or, when you are out and about in your trouser pocket and it is especially suited for sharpening small knives and shears. Indispensable to have with you even when you are on the move.

SHARPENS FISH HOOKS AND OTHER OUTDOOR GADGETS

SHARPENS SCISSORS

SHARPENS STRAIGHT BLADES

SHARPENS SERRATED BLADES

TOP ADVANTAGES:

- No pressure required
- Gentle on the blade
- Won't form a burr on the edge
- Small enough to carry around

PROFESSIONAL SHARPENER

Thanks to its size, not only professionals who prefer a sharpener with a bigger handle and sharpening section think it's great. The thumb guard allows you to sharpen large kitchen knives and garden shears for instance. The hole in the handle is a practical feature for hanging the sharpener from a hook.

SHARPENS ALL GARDEN TOOLS

SHARPENS SURGICAL INSTRUMENTS

SHARPENS SERRATED AND STRAIGHT KNIVES

TOP ADVANTAGES:

- No pressure required
- Gentle on the blade
- Won't form a burr on the edge
- Has a hole for easy storing
- Thumb guard

EASY TO USE:

Place the ISTOR SWISS SHARPENER® (standard or professional) on the blade to be sharpened, tilt 30° -50° and gently stroke from handle to tip or from tip to handle until desired sharpness is achieved and then repeat on the other side. Using even softer strokes, hone gently to remove any burring. For serrated blades sharpen only on the flat (back) side to rejuvenate points. The sharpener will not form a shoulder on the blade, thus maintaining the edge and sharpness of the blade much longer.
